

Calling all Young Carers aged 16-24

Join the NHS England Young Carer Health Champion programme in July 2019!

The Programme

The Young Carers Health Champion programme was established in 2015 to support improved health literacy, promote health and wellbeing and develop the capacity of young carers to participate in planning and development of young carer friendly services. It aims to support service change through young carer voices.

The 12-month programme is made up of young carers (aged between 16 – 24) from across the country. You will experience self-development, be part of healthcare initiatives that aim to improve young carer identification and support and develop an action plan with outcomes that further support young carer friendly services.

Why join the Programme?

If you are a young/young adult carer who wants to make a difference and contribute your experience and ideas, then this programme is for you.

Health Champions that complete the programme can become a Mentor for the next cohort of Health Champions, your personal development and opportunity to be part of national work to improve the support and identification of young carers can continue.

- We do require the support workers to be responsible for and available to their young carers throughout the weekends particularly between 10pm – 8am and we encourage them to get involved in all activities.
- The programme is funded to support all necessary travel requirements to enable full participation on the programme for the young carers and support workers. The programme can also support a £150 contribution per support worker per residential.
